SourceWeb
MLM
Location-Independent Work
A Dream becomes true

ACCORDING TO THE MOTTO
"TOGETHER WE ARE STRONG"

IT'S AS SIMPLE AS THAT,
ABOUT REFERRAL MARKETING WITH US,
EARN MONEY.

How does it work?

You can increase your revenue potential by directing new customers or vendors to SourceWeb®. Simply share the appropriate custom referral link listed on the [Projects](#) Page of your account as a Basic or Premium Member.

Marketing via Affiliate Links

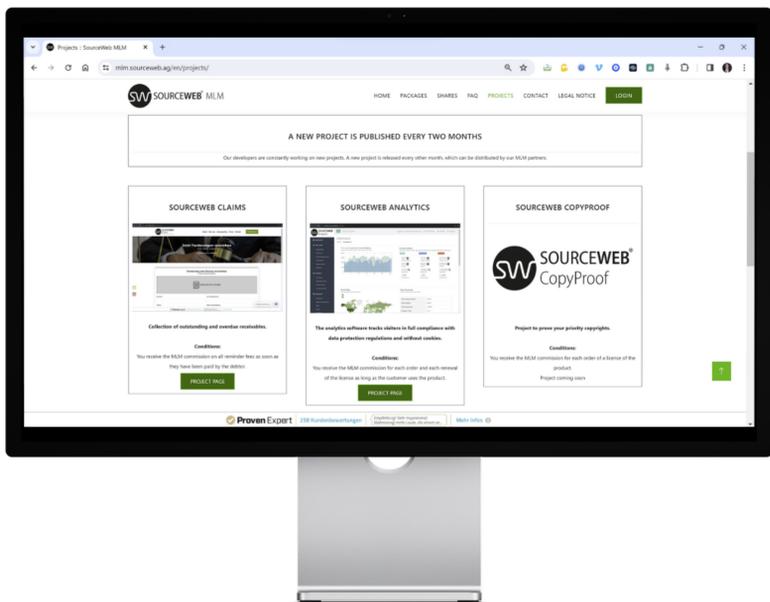

When the person you referred clicks on a referral link, a 1-year cookie (containing your referral ID) will be stored in their web browser. If the person you referred sets up an account on one of SourceWeb's websites within 1 year - even if it is a free customer account - your referral ID will be linked to the account.

More Advertising - Generate more Income

If you generate income by recruiting new subscribers (Basic or Premium Package, Share Purchase) or customers for our various digital projects, this will be displayed as referral income on the earnings overview page and can then be paid out at any time.

From the Idea to the Market

Our developers are constantly working on new projects. A new project is released every other month, which can be distributed by our MLM-Partners.

SHARES

Our shares offer three ways to earn money:

Dividend Payments

- At the end of each calendar year, dividends are distributed on the company's profits.

Compensation Fund

- As a shareholder with an MLM license, you receive a share of the compensation fund at the same time as the dividends. The MLM bonuses that would actually be paid out to an MLM partner who does not qualify for this payment are paid into this fund. This means that the bonuses of levels 5 to 7 of the Basic Partners, as well as all levels to accounts without Partner qualification, are paid into the fund.

Price Gains

- After the start of public share trading, you can sell the shares freely. The starting price will be \$ 5.00 per share.

Advantages of Selling digital Products

Digital products are ideal for quick sales via distribution and can be very profitable.

We are in the right place at the right time.

According to a study by Statista, global sales of digital products amounted to around USD 462 billion in 2020 and are expected to rise to over USD 600 billion by 2025.

This is a huge growth potential and a perfect opportunity for you and your sales team to sell our marketable, digital products online and thereby build up a high, passive income.

WHAT ARE DIGITAL PRODUCTS?

Digital products are apps or platforms that offer the user added value without the user physically owning the product.

Digital products therefore usually take over services such as debt collection or automated software programs (statistics) and much more.

Digital products have become an integral part of our everyday lives.

They are increasingly penetrating existing structures, processes and even cherished habits.

No other technological change in recent decades

has had such a massive and lasting impact on a company's business.

They have the advantage that they are easily accessible, quickly available and usually more cost-efficient, than physical products. Digital products are characterized above all by the fact that they can always be reused.

As a rule, they are easily scalable, i.e. they can be sold to many customers at the same time without significantly increasing the cost of the product per sale. This is the only reason why we are able to pay 50% Commission into the sales structure and still offer a better price/performance ratio than our competitors.

DIGITAL PRODUCTS MEAN CRISIS-PROOF SALES.

Digital products thus become crisis-proof sales, because they almost always function independently of everything else.

Regardless of whether a pandemic is raging or there are supply bottlenecks, digital products can still be purchased and consumed or used.

This is what makes them so valuable and an important source of additional income for your sales.

Your passive income is secured forever, so to speak.

If you would like to support us or have any questions, please feel free to contact us.
