cost-effective EQUIPMENT SOLUTIONS
for your RADIATION ONCOLOGY and
DIAGNOSTIC IMAGING practices

EQUIPMENT SOLUTIONS **WITHIN REACH**[™]

Peace of Mind

Our hundreds of satisfied customers around the world will attest that we stand behind our products and ensure your satisfaction - from purchase through installation. ROS' experienced professionals will provide customized project management from start-to-finish for even the most challenging assignments. So relax, we're here to help.

Selection

We offer all major brands of radiation therapy and diagnostic imaging equipment. This includes linear accelerators, IMRT and IGRT solutions, CT and conventional simulators, PET/CT, brachytherapy, and more. To accommodate your needs, our refurbished solutions come with a range of installation and warranty packages.

Affordability

If you're opening a new center, adding a new treatment or simulation room, or just want to upgrade your equipment, the costs can be daunting. ROS brings equipment solutions "WITHIN REACH". Call one of our representatives for a free consultation.

Our Pledge

As a healthcare provider, you pledge to provide the best possible care to your patients. We understand that commitment and we're there to back you up. Our pledge is to provide the best possible care to you - our customer.

Radiology Oncology Systems | 6450 Lusk Boulevard, Suite E205, San Diego CA 92121

If your radiation oncology or diagnostic imaging practice is building, expanding or upgrading its facilities, make ROS your first call. With our track record and expertise, we'll help you make the right choices.

Oncology Equipment

We offer all major brands of linear accelerators, including Varian, Elekta and Siemens, and have installed systems all throughout the world. Our success in implementing projects both large and small, straightforward and complex, is what makes us the market leader.

Imaging Equipment

Let us provide you with the CT scanner or the conventional simulator of your choice. We offer all major manufacturers and models, including multi-slice CTs, MRIs, PET/ CTs and large bore CTs.

Products and Accessories

ROS proudly distributes top quality products and accessories to enhance your radiation oncology practice. Call us for assistance on IMRT solutions, IGRT solutions, portal imaging, patient positioning and laser systems, treatment planning systems and more.

Parts and Upgrades

Multi-leaf collimator upgrades, couch and table-top upgrades, klystrons, magnetrons, refurbished waveguides, and a wide range of parts for your equipment. Call us for any of your radiation therapy equipment parts needs.

Equipment Services

Allow our professional staff to handle your equipment logistics and maintenance needs. We offer linear accelerator warranties, installations, removals, disposals and/or relocations. Find out today how ROS can bring you reliable equipment services **WITHIN REACH**.

Worldwide Support

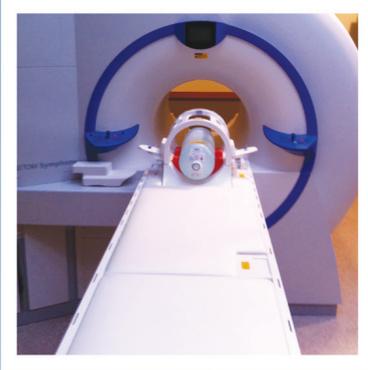

ROS has multi-lingual representatives to assist you with any equipment need. Our international network of distributors and service organizations stands ready to help equip your facility with reliable, cost-efficient solutions.
